Audit Compilance - Mobile Auditing

Uniting Audit Teams with Mobile Auditing Software

Conducting audits can be complex. Coordinating audits, assigning teams and collecting data to share with one another is a lot to manage separately. What if you had an auditing solution that could connect your entire audit team—streamlining the entire process and saving valuable time? When a company wanted to change their safety audit strategy across their Oceania-based sites, they deployed Benchmark's Mobile audit solution. With Benchmark Gensuite, the company was able to establish a Mobile audit process across 15 sites, enabling audit teams to seamlessly share findings, notes and identify opportunities to take action using a single platform.

Benchmark Gensuite Solution

The company chose to deploy Benchmark Gensuite's award-winning Audit Assistant application to enable Mobile audits across their Australia & New Zealand locations. Cloud-based Audit Assistant streamlines auditing processes by enabling auditors to work as a team to complete assessments together using their Mobile devices, sharing updates in real-time. With Audit Assistant users can…

- ▶ Collaborate, review and finalize findings together – consolidate observations, assign responsible parties and finalize for your audit report out

- ▶ Leverage offline Mobile capabilities to capture observations with photo/video attachments regardless of connectivity

- ▶ Use "Google for Auditors" feature to search regulatory compliance protocols and citations

- ▶ Easily transfer findings into Benchmark Action Tracking System to manage corrective action plans

Business Profile

- ▶ Large water technology provider

- ▶ 16,000 employees offering services across 150 countries

- ▶ 15 locations in Australia & New Zealand

Business Needs

- ▶ A platform to conduct all audits across worksites in Australia & New Zealand

- ▶ Reduce the amount of time spent on safety audits

- ▶ Deploy a solution that makes it easier for audit teams to share findings and identify corrective actions

Specific EHS/IT Needs

- ▶ Digital system to conduct audits, store information and share investigation notes across team members

- ▶ Mobile auditing solution with offline capabilities

- ▶ Solution that is maintained and updated in real-time

Results & Benefits

▶ Created a safety assessment program that covers 3-5 audits annually across 15 locations on a 5-year rotation basis

▶ Ability to conduct group audits & live share audit findings with other auditors on the team

▶ Time savings from eliminating the use of manual notes, Microsoft® PowerPoint presentations & Microsoft® Excel spreadsheets to record and share safety audit data

Keys to Success

▶ Establish a schedule for safety audits across sites & keep auditors informed

▶ Have a collaborative approach to audits increases productivity

▶ Consider choosing a Mobile-enabled audit solution to save time
