

# Audit Compliance - READY Automotive

## Implementing an Economical Ready-Made EHS Software Solution to Transform Program performance and Mitigate Risks

An automotive manufacturer deployed a full-featured, affordable EHS solution at a single, large site to digitize program processes, mitigate risks and drive site efficiency.

### Benchmark Gensuite Solution

Benchmark Gensuite READY for EHS, is a pre-configured, compliance-centric solution, perfect for single sites, smaller organizations or enterprises interested in pilot deployment that can launch in just 2 weeks.

- ▶ System & application configurations based on industry standard best practices and programs
- ▶ Adheres to recurring permit or regulatory reporting obligations
- ▶ Tracks & follows up on incidents
- ▶ Conducts inspections efficiently with seamless Mobile to desktop capabilities
- ▶ Identifies incidents or concerns, assigns corrective actions and drives actions to closure

### Business Profile

- ▶ Asia-based automotive company
- ▶ Global manufacturing locations
- ▶ Publicly traded

### Business Needs

In order to manage EHS at a single, U.S. based manufacturing site, the company needed:

- ▶ A holistic platform to address EHS compliance and management concerns
- ▶ A system that could easily be implemented with ~1,000 employees
- ▶ Built-in reporting features, something their previous system lacked

### Specific EHS/IT Needs

The company needed to digitize their compliance and management system, including:

- ▶ Moving away from paper-based employee concern reporting
- ▶ Transitioning from clipboard inspections to Mobile inspections
- ▶ Replacing their Excel method for tracking safety and environmental compliance

## Results & Benefits

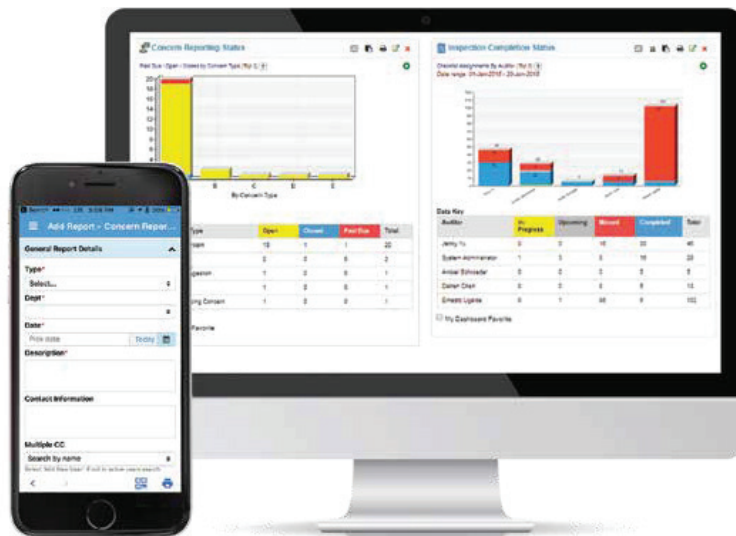

The company was able to successfully implement Benchmark READY to...

- ▶ Deploy Benchmark in a matter of weeks with a successful in-person training program for over 1,000 employees
- ▶ Identify and resolve 365+ hazards in 16 months
- ▶ Digitize site safety inspections, employee concern reporting and safety and environmental compliance management, driving smooth system adoption across the site

## Keys to Success

- ▶ Understand permits and regulations that affect your company and implement a system that can track and ensure compliance
- ▶ Communicate EHS compliance and management needs to key stakeholders and determine your solution scope
- ▶ Host training sessions for all employees that will use the new EHS software solution
- ▶ Leverage mobile capabilities to digitize key EHS processes, making the tools
