

## Business Profile

- ▶ Multinational conglomerate company
- ▶ 1 site, 962 acres
- ▶ Over 2,000 equipment to manage

# Equipment Maintenance

## Simplifying Equipment Inspections Using Comprehensive Mobile

Managing thousands of equipment across a large site requires an efficient and effective strategy. Without one, companies face the consequences of non-compliance. How can companies thoroughly complete equipment inspections on large sites? See how this company leveraged Benchmark Gensuite to entirely digitize, streamline and ultimately improve their inspections process, from equipment tracking to conducting inspections and assigning findings to corrective actions!

### Business Solution

To fulfill these needs, Benchmark Gensuite offered Equipment Tracker and Inspection Tool in combination with innovative barcode scanning capabilities.

- ▶ Equipment Tracker enables users to manage their entire equipment inventory; track specific details including location, part numbers and standard operating procedures (SOPs).
- ▶ Inspection Tool allows users to conduct Mobile equipment inspections for operational, safety & compliance needs; author customized checklists, assign auditors and set inspections schedules.

The company can manage all equipment within Benchmark Gensuite using Equipment Tracker and Inspection Tool, and further streamlines the inspections process by leveraging Benchmark Gensuite Mobile. Benchmark Gensuite Mobile enables the company to complete inspections offline and has integrated barcode technology to allow users to easily scan equipment and instantly receive data. Any findings can then easily be logged into Action Tracking System for corrective action!

### Business Needs

Streamline the overall equipment inspections process

- ▶ Simplify data entry, including specific documents, permits and procedures
- ▶ Improve data consistency by eliminating Excel and paper inspection methods
- ▶ Provide visibility to inspection assignment and completion

### Specific EHS/IT Needs

- ▶ Mobile solution, including offline capabilities
- ▶ Incorporate barcode technology to speed the inspections process
- ▶ Integrated reporting capabilities to instantly track inspection completions to closure

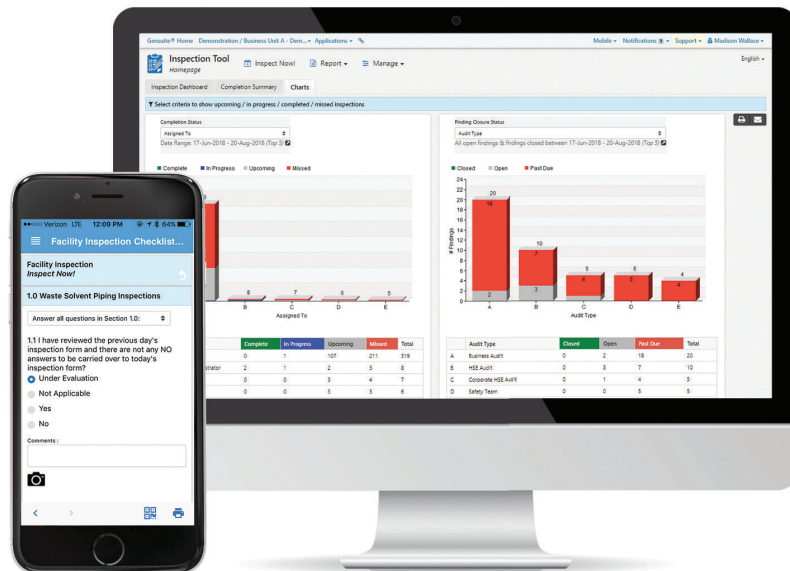

## Results & Benefits

- ▶ 2,900+ inspections conducted per month
- ▶ Time saved from transitioning to a digitized and streamlined inspection solution
- ▶ Offline Mobile capabilities enable users to complete equipment inspections uninterrupted

## Keys to Success

- ▶ Ensure all equipment is appropriately tagged to the correct scope within Benchmark Gensuite for accurate data mining
- ▶ Properly train employees to use the Benchmark Gensuite Mobile application
- ▶ Have a leader on your team to advocate the system
