

# Framework Scorecard

## Enabling a Global Company to Drive & Track Site Implementation of EHS Program Elements

This industrial technology leader launched an initiative to systematically implement EHS and Sustainability program elements to standardize key processes at all of their global sites. Executing the initiative via a digital solution enabled sites to adopt applicable program elements in a prioritized sequence with the concurrence of business program leaders, while providing continuous visibility to corporate management.

### Business Solution

The company worked with Benchmark Gensuite to utilize a digital application, the Benchmark Gensuite Framework Scorecard, to facilitate the rollout and adoption of management system program elements across all of their sites, leveraging their previously established Benchmark Gensuite platform for EHS compliance and sustainability metrics tracking.

- ▶ Enables site-level assignment and tracking of individual program elements and process implementation expectations
- ▶ Standardizes implementation through targeted implementation guidance notes and best practice sharing
- ▶ Provides visibility to site, business and corporate management on milestones accomplished by program element and analytical tools to identify key program gaps/needs

### Business Profile

- ▶ A publicly held, global industrial company
- ▶ Headquartered in Europe with 250+ locations and 50,000 employees
- ▶ Top performing in their markets

### Business Needs

- ▶ Implement a phased priority scheme to manage EHS&S elements
- ▶ Set up a system that will provide company-wide visibility to global sites
- ▶ Leverage data mining capabilities to easily identify risks across sites and drive corrective actions

### Specific EHS/IT Needs

- ▶ A system that can be configured to manage and oversee specific EHS&S performance and program progress to:
- ▶ Track site awareness and implementation of EHS&S tools
- ▶ Provide roll-ups of data and average scores across business sites to create reports to derive opportunities for program improvement
- ▶ Digitize processes used to track company-wide performance and program elements

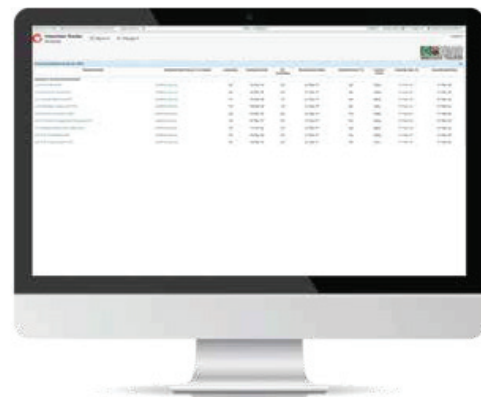

## Results & Benefits

- ▶ Established a management template to drive successful implementation across sites
- ▶ Successful tracking of 50+ program elements across 250+ global sites
- ▶ Provided discrete data on program implementation status to oversee the company's EHS&S performance and program

## Keys to Success

- ▶ Transfer EHS content into an online framework to track solution implementation progress
- ▶ Involve key stakeholders in the system development process to ensure that all business and EHS/IT needs are met
- ▶ Analyze data insights to track year over year reports for program and performance comparison and improvement
